Page Budget Information

Volume page budget: 768 pages

Average pages per issue: 128 pages

To estimate the number of journal pages a manuscript will consume, divide the manuscript's word count by 614, then add a half-page for every figure/table.

To view the page counts for in-production articles (as well as other useful info), log in to SMART and go to Reports > Article List.

Submission Checklist

[Online Version of Checklist](#)

Please ensure each manuscript...

- Is a Word File (.doc or .docx)
- Conforms to the appropriate style throughout
- Includes title, short title*, abstract*, keywords*, and article type
- Includes names, e-mails, mailing addresses, affiliations, surname designations, degrees*, and biographies* for ALL authors
- Includes callouts for all figures, tables, and supplements
- Includes references for all in-text citations, and in-text citations for all references
- Tables (if any) are editable, include captions, and are placed after reference list (or in separate files if not Word format)
- Figures (if any) meet Artwork Guidelines, include captions, and are placed at end of manuscript or in separate files
- Online-only supplements/appendices are clearly marked with "_online_supp" in file name
- Is accompanied by signed publishing agreement and permission(s) as appropriate

*Omit as appropriate for specific article type or journal
